## Unit 4 Chemical Peeling

### Assignment Task

You are required to discuss and evaluate the purpose and effects of a superficial peel in the aesthetic clinic within in the scope of Level 4 treatments

We advise you to complete this assignment after you have completed your practical training and alongside or after your case studies as this will provide you with the required insight and experience to provide a broad discussion on this treatment modality

### Assignment Brief

#### You must:

- Identify and discuss the agents used in Level 4 treatments including their source and any restrictions of use
- Discuss the effects of these agents on the skin including effects on specific skin conditions
- Discuss how the difference in pH and percentage of the agent can affect the treatment results
- Identify the various ways of applying agents. Relate to your own experience and give examples of applications including advantages and disadvantages
- Conclude by explaining the importance of priming the skin prior to treatments and explain how to achieve treatment progression

## Assignment Instructions

1. You are requested to use the headings above to organise this assignment structure, please follow the bullet points in order as they appear above.
2. Please use a new paragraph for each bullet point.
3. You should write in full sentences checking spellings and grammar throughout before you submit your work.
4. Your work should flow, try not to repeat what you have said in the last paragraph but you can refer to information you have already given.
5. Try to write this without saying 'I' too much. Write in the 3<sup>rd</sup> person where possible (without saying 'I' or 'we').
6. Your target is to write between 1500 – 1000 words, no less and no more
7. You must a maximum of 2 references of where you have reserached when writing this assignment at the end of your work - for example, books, websites, training material. A guide to referencing is found on the student zone or your tutor will send you one
- 8 This assignment is to be typed and sent to your tutor for marking
- 9 Please use size 12 font - style Arial.

Your assignment will be graded as follows

60% Pass,

75% Merit,

85% Distinction

A guide to grading is available on the student zone.

Please note the grade of this assignment does not affect the mark in your final examinations.
