

**LEVEL 4 QUALIFICATIONS IN ADVANCED SKIN STUDIES AND**

**AESTHETIC PRACTICE**

**RANGE STATEMENTS PRACTICAL UNITS**

**SDP03: BLEMISH REMOVAL BY THERMOLYSIS AND CRYOTHERAPY**

The range statements for this unit are listed below. These specify the treatments you will need to provide, the skin lesions for which you should evidence treatment and the variety of techniques you should use. You will need to record the Range Statements Covered for each of the procedures you complete during your training and case study completion. For most of the treatments you will complete, you will cover several of the different range statements.

**IN TOTAL YOU MUST TREAT A MINIMUM OF 12 CLIENTS FOR BLEMISH REMOVAL**

You must cover **ALL** of the Range Statements listed below within your treatment provision. If you have not been able to address one of the Ranges in practice due to client or product constraints then you should refer to your course tutor who will address this by oral or written assessment.

**PLEASE NOTE - For the competent provision, and successful examination, of blemish removal IT IS VITAL that you practice the removal of each type of lesions as much as possible and beyond the mandatory requirement outlined in this document.**
