

LEVEL 4 CHEMICAL SKIN PEEL PRACTICAL EXAMINATION MARK SHEET	
90 MINUTES	
Asterix marks in brackets (*) indicate minimal mark required to pass	
Marks	
1. Appearance and Department	
Presented themselves professionally according to clinical requirements for uniform, hair, shoes, hosiery, nails, jewellery, and piercings.	5 (*3)
Demonstrated good sitting or standing posture throughout the treatment	2
2. Initial Consultation	
15 Mins	
Checked and updated client consultation paperwork in relation to potential changes in circumstance and contraindication	4
Correctly interpreted information given during consultation process to establish influences on skin health skin healing capability - to include:	
Environmental influences	3 (*1)
Health and well being influences	3 (*1)
Lifestyle influences	3 (*1)
Dietary	3 (*1)
Existing skin care regime	3 (*1)
Accurately assessed the implications of the information provided during the client consultation to establish overall skin health, healing capacity and treatment plan	5 (*3)
3. Completed Procedures for Informed Consent - 10 mins	
Explained benefits and effects of single treatment and regular treatment over time	3 (*1)
Explained procedures	3 (*1)
Explained sensations	3 (*1)
Explained both normal and any potential adverse reactions	3 (*1)
Explained realistic expectations	3 (*1)
Completed paperwork and gained signatures for consent	3 (*1)
4. Client Preparation - 10 mins	

Ensured comfort of the client on the couch	2
Appropriately removed or covered clothing	2
Applied hair protection efficiently and thoroughly	2
Carried out efficient and effective cleansing procedures	
Use of correct product	2
Dexterity of procedure	2
Efficiency of cleanse outcome	2
5. Pre Procedure Photographs - 5 mins	
Took accurate clinical photographs to include:	
Correct lighting	2
Correct distance	2
Front and side images taken	3
Labelling of photographs - Client Name, Date, Before / After	9 (*6)
Observed sanitisation protocols before and after taking photograph	2
6. Visual Skin Assessment - 10 mins	
Correctly concluded primary type	2
Correctly concluded Fitzpatrick Skin Type	2
Visually assessed secondary skin characteristics in each zone of the skin to be treated to include:	
Correctly used magifying lamp and lens	2
Accurate assessment of collagen and elastin integrity	2
Accurate assessment of level of DEJ adhesion	2
Accurate assessment of dermal hydration and Volume (HA)	2
Accurate assessment of epidermal hydration and TEWL	2

Accurate assessment of epidermal lipidity and sebaceous secretions	2
Accurate interpretation of the quality of the Natural Barrier Function	2
Accurate assessment of skin pigmentation and irregularities	2
Accurate assessment of vascular condition	2
Accurate assessment of the level of skin reactivity	2
Accurate assessment of skin texture and thickness	2
Accurate assessment of any anomalies / Inflammatory conditions / localised lesions	2
Accurately interpreted the visual observation of the skin to establish overall skin health, healing capacity and appropriate treatment plan	5 (*3)
7. Peel Choice	
Chose an appropriate formulation for the skin condition	3 (*1)
Accurately described peel formulation - Active Agents, Percentage, pH, peel depth	4(*4)
Justified peel choice for skin type	3 (*1)
Gave appropriate timing for peel	2 (*1)
8. Skin Preparation for Chemical Peel - 5 mins	
Carried out effective application of de-greasing agent, if applicable (Ask oral questions if not applicable)	3 (*1)
Carried out effective protection of vulnerable areas of the face with barrier cream prior to peel application	2 (*1)
Protected the eyes with a sealed pad	3 (*2)
9. Peel Application - 5 mins	
Gave professional and thorough explanations to the client	3 (*1)
Safe and effective use of the applicator	3 (*2)
Applied the peel sequentially	3 (*1)
Applied the product within the required time constraint	2 (*1)

Covered treatment area thoroughly and evenly	3 (*1)
Visually and verbally monitored the skin and client comfort throughout and responded appropriately	4 (*2)
Ensured accurate timing of the peel in line with protocol and client needs	2 (*1)
10. Peel Removal - 5 mins	
Accurately and quickly carried out neutralisation of the peel, if required (oral question if not applicable)	3 (*2)
Carried out fast and efficient removal of all product from the skin	3 (*2)
Addressed inflammation and discomfort appropriately	3 (*2)
11. Conclusion of Treatment and Aftercare - 10 mins	
Applied appropriate anti-inflammatory compress or treatment mask	3 (*1)
Applied appropriate post treatment products (incl SPF)	2 (*1)
Discussed with the client aftercare instructions and recommendations for homecare and further treatment to include:	
Antioxidant	2
Hydration	2
Lipid Replenishment	2
Condition specific product	2
Sunscreen	2
12. Post Procedure Photographs - 5 mins	
Took accurate clinical photographs to include:	
Correct lighting	2
Correct distance	2
Front and side images taken	3
Labelling of photographs - Client Name, Date, Before / After	9 (*6)
Observed sanitisation protocols before and after taking photograph	2

13. Documentation- 5 mins	
Accurately recorded treatment details and follow up protocol	
Peel formulation (Peel Agents, Percentage Strength, pH)	3
Peel Formulation Batch Numbers	1
Timing	1
Skin Neutralisation Procedures / Removal Techniques	1
Skin and Client reactions	1
Pre and post procedure products used	2 (*1)
Review Date	1
Recommended subsequent treatment	1
Client Feedback and Signature	2 (*1)
14. Oral Questions	
Answered oral questions correctly - 2 marks per question	8
15. Hygiene	
Ensured tidiness of work area throughout treatment	2
Complied with hygiene, sterilisation and sanitation procedures	3 (*2)
Use of PPE according to protocol	3 (*2)
Appropriate disposal of clinical waste	1 (*1)
16. Communication and Client care	
Maintained professional communication and client care	2 (*1)
17. Commercial Considerations	
Work within the time constraint and showed cost effective use of products	2 (*1)
18. Safety	

Demonstrated a clear understanding, and application of, safe practice throughout	1 (*1)
