Aesthetic Practice

## THE SALLY DURANT

### ACCESS COURSES FOR LASER AND AESTHETIC PRACTICE

#### INTRODUCTION

The beauty therapy industry is changing rapidly. The development of specialist areas of practice, such as in laser and Light therapies, skin rejuvenation procedures, body contouring and advanced aesthetic treatments, has resulted in the evolution of a separate sector within the industry – that of Aesthetic Practice and the Medispa.

With this industry growth has come a need for education and training development, both for those already working in the sector or for individuals who may wish to enter the sector from a non-traditional beauty therapy or medical background.

As a result of a report published by Health Education England in January 2016, the government commissioned the formation of the Joint Council of Cosmetic Practitioners to develop new qualification standards from Levels 4 - 7 for all practitioners. The stipulation was that these qualifications were to include broad access routes of entry into the profession.

The JCCP was also tasked with the establishment of a Practitioner Register which, while currently voluntary, marks the move towards possible mandatory regulation in the future. As a result many insurance companies are already increasing their criteria for cover with the requirement for these higher level qualifications.

#### THE SALLY DURANT ACCESS TO AESTHETICS PROGRAMME

In compliance with the JCCP standards, and in response to demand from individuals entering the profession or requiring qualification upgrades, the Education Team at Sally Durant are pleased to bring you a portfolio of courses to address this need.

There are two principle routes you can follow:

**1. Access To Laser And Light Therapies**

Level 3 Certificate In the Principles of Cosmetic Practice

**2. Access To Aesthetic Practice**

Level 2 Award in Facial Skin Care

Level 3 Certificate in the Principles of Cosmetic Practice

Level 4 Certificate in Advanced Skin Studies and the Principles of Aesthetic Practice

#### Entry Requirements

For either of our Access Programmes you will need to evidence a good general education, including GCSE Mathematics and English, A\* - C. This may also include achievement of

Functional Skills or Essential Skills in Mathematics and English. A good level of written and spoken fluency in the English language is also required.

## 1. ACCESS TO LASER AND LIGHT THERAPIES

This course will enable you to progress onto the Level 4 qualifications in laser and IPL procedures in compliance with the JCCP standards and the requirements of insurance companies.

The qualification you will gain is :

### **The CIBTAC Level 3 Certificate in Cosmetic Practice**

The CIBTAC Level 3 Certificate in the Principles of Cosmetic Practice is a practical and knowledge based qualification which will provide you with the necessary knowledge and skills for work as a laser therapist. It will qualify you for progression into training in laser and IPL procedures at Level 4.
